Construction Lamp Floor

JOOST VAN BLEISWIJK

The Construction lamp ultimately originates from a bright curiosity combined with expert skills, industrial tools and a touch of playful passion for vintage construction toys. As a result, the lamp's details and joints take the shape of Victorian cast iron components and become part of a base that resembles a traditional electricity pole. Enjoy a high voltage stream of inventiveness and light!

Detailing

Just like vintage construction toys and scaffolding, the Construction Lamp is assembled by hand.

Dimmer

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

DIMMER TYPE

Dimmer on power cord

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
