

Container Table Classic

MARCEL WANDERS

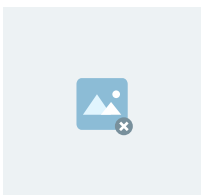

The Container Table Classic, designed by Marcel Wanders, is the foundation you build your home around. This lightweight design is easy to move around, but once it's found its place and you fill up the foot with sand or pebbles, it's all strength and stability. The Container Table Classic can seat up to ten people. Do you prefer a different colour, material or size? Configure the Container Table Classic to your own wishes with the online configurator.

Detailing

The Container Table is the solid and architectural base for your interior.
