

Dandelion Suspended

RICHARD HUTTEN

True to its name, Dandelion was initially inspired by the plant that creates the famous and poetic 'dandelion snow' of fuzzy, cotton-like seeds when a gush of wind blows on it. The lamp transmits an explosive feeling of energy in motion, reaching towards us from its centre. Striking and pure self-generated energy to lighten up and blow away the heaviness of everyday life. Dandelion is truly a breath of fresh air.

Detailing

Due to the open structure of the rings, the Dandelion appears airy, as if it is ready to float with the wind at any given moment.
