

Raimond II

RAIMOND PUTS

The Raimond lights: perfect spheres of mathematical ingredients punctuated by tiny LED lights. Designer Raimond Puts was not only intrigued by the shape of the geodesic dome, but also with the mystery of prime numbers. It's no coincidence that the dimension of all Raimond lights resemble a prime number. The result of mathematical perfection, that brings the starry night sky into your home. Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

Detailing

Two steel spheres, interconnected with LEDs, form a thin and openwork triangular mesh that transport the electric current.

Dimming & Lighting Control

DALI dt6

The luminaire is dimmable by integrating it into a DALI network. This is an universal and professional standard in home automation systems with endless control possibilities and ease. We advise to hire a professional to integrate the luminaire into your DALI network.

Compatible models: Raimond II, R43 UL, Raimond II, R43 CE, Raimond II, R61 UL, Raimond II, R61 CE, Raimond II, R89 UL, Raimond II, R89 CE

Push / Pulse dim on Line Voltage

The luminaire is dimmable by using an external momentary switch or pushbutton switch. The switch is usually mounted on an existing wall socket. In some cases a Phase or Control wire needs to be added to your home's wiring. The switch should be suitable for use with line voltage and of the type 'normal off - momentary on'. The luminaire dims perfectly when the switch makes and holds contact. A short press switches between on and off.

Compatible models: Raimond II, R43 UL, Raimond II, R43 CE, Raimond II, R61 UL, Raimond II, R61 CE, Raimond II, R89 UL, Raimond II, R89 CE

Wireless Wall Switch

With our Wireless Wall Switch, you'll have full control over your Moooi lighting design with one touch. Our Wireless Wall Switch comprises two components, a wall switch and radio device to put in the canopy of your Moooi lighting design. The wall switch can be integrated in System 55 or Decora style wall switches. The Wireless Wall Switch communicates via Bluetooth with the radio device in the luminaires canopy. Within moments you can enjoy full and fluent dimming, all the way to dark.

Compatible models: Raimond II, R43 UL, Raimond II, R43 CE, Raimond II, R61 UL, Raimond II, R61 CE, Raimond II, R89 UL, Raimond II, R89 CE

Mains / ELV dimming is not possible

Mains and/or ELV dimming is not possible. The wireless wall switch is advised for dimming in this case.

Compatible models: Raimond II, R43 UL, Raimond II, R43 CE, Raimond II, R61 UL, Raimond II, R61 CE, Raimond II, R89 UL, Raimond II, R89 CE

0-10V

The luminaire is dimmable by using an either internally mounted or externally placed 0-10V dimmer switch. 0-10V

is a dimming system widely used in some parts of the world, for example in North-America. This method will need its own wiring. Dimming quality is perfect, without flicker, the range can be limited and the luminaire can be dimmed to off.

Compatible models: Raimond II, R43 UL, Raimond II, R43 CE, Raimond II, R61 UL, Raimond II, R61 CE, Raimond II, R89 UL, Raimond II, R89 CE
