Raimond Zafu

RAIMOND PUTS | REALISATION BY OX-ID

The Raimond light is a perfect sphere of mathematical ingredients punctuated by tiny LED lights. The Raimond is specially detailed to spread warm white light in every direction. Looking at the light feels like staring into the soft glow of a starry night. The Raimond Zafu creates an extra-terrestrial effect with its elliptical shape and tiny LED-lights. Like its spherical family members, the Raimond Zafu is made from the same elegant metal strips and mathematical ingredients.

Detailing

The interconnected wooden structure uses tension and pressure in order to retain its shape and carry the metal sphere.
